STATE GENERAL FUNDS

State General Funds for CalWORKs - \$1.5 million

METHODOLOGY

Pursuant to Assembly Bill 1542 (Chapter 270, Statutes of 1997) the \$1.5 million of California Work Opportunity and Responsibility to Kids (CalWORKs) State General Fund (SGF) for substance abuse services is allocated proportionately to counties based on the methodology established by the California Department of Social Services. The methodology used to allocate these funds are based on each county=s percent of the statewide Greater Avenues for Independence Program (GAIN)/ CalWORKs allocation. The initial GAIN allocation utilizes as a base each county=s percent of the total number of aided adults in California, with additional funding above the FY 1996-97 level distributed as follows: two-thirds of the additional funding allocated to all counties based on each county=s share of adults aided, with the remaining one-third allocated only to those counties that in the prior year received an allocation per average adult at a level less than the statewide average.

CONDITIONS OF FUNDING

The \$1.5 million in CalWORKs SGF is allocated to all counties and can only be used to match federal Medicaid funds for Drug/Medi-Cal (D/MC) services to provide a total of \$3 million in D/MC services to CalWORKs clients who have substance abuse treatment required in their Welfare-to-Work Plans.
